

When we first arrived at Dr. Lane Robson's office a year ago we were greeted by a friendly nurse receptionist in a nice tranquil office. The view of the park behind the office added to the comfortable feeling in the office. We knew right away that our son was in the right place.

Our son was 11 years old at the time and was still having problems with bed-wetting. This was just an on ongoing problem that we thought would resolve itself. It didn't until we got the name of a specialist in bed-wetting named Dr. Lane Robson.

Through behavior modification Dr. Robson was able to train our son's bladder to act bigger and stop the bed-wetting. We didn't know that having good bowel habits contributed to help alleviate our son's problems.

Over a period of a couple of months, our son had more confidence and is now able to have sleepovers.

We wouldn't hesitate in a minute to recommend Dr. Robson. We felt so comfortable going to him that we don't want to let him go. We're still going as a reassurance to our son.

If you are lucky enough to get into Dr. Robson's office grab the opportunity, you won't regret it.

Sincerely  
Family from Shawnee Slopes / Evergreen  
Calgary Alberta.
